## ABOUT ME

Somehow cool and nerdy at the same time, I'm always even-keel and very easy to get along with. You might find me equally geeking out over the newest Marvel movie trailer or Adobe CC feature release.

## WORK EXPERIENCE

### • EVOLVE CREATIVE GROUP

SENIOR WEB DESIGNER • 10/11-PRESENT

In this position I primarily design, build and help to maintain websites for our clients. I work on sites starting with their initial planning phase (research, sitemaps and wireframes) all the way through the site's launch and everything in between. I work with our Online Marketing team to ensure that our sites will produce results for our clients. We build our sites in content management systems like Wordpress and mojoPortal. Projects that I worked on have received two W3 Silver Awards and two Communicator Awards.

### • INNOVATIVE GLOBAL VISION

DESIGNER • 6/08-10/11

The majority of my work in this position was web based, although I didn't have the opportunity to build any of my own designs. My favorite thing about this position was the work we did on the e-commerce sites for professional sports teams like the Cleveland Browns, Baltimore Ravens, New Orleans Saints and Arizona Cardinals.

### • TRG REALITY

FREELANCE PHOTO RETOUCHER • 6/08-10/08

At TRG I retouched edited and manipulated their exceptional photography in whatever way was needed. I learned a ton of cool things about using Photoshop here.

## EDUCATION

### • THE UNIVERSITY OF AKRON

BFA IN GRAPHIC DESIGN • 2005-2008

### • KENT STATE UNIVERSITY

COURSEWORK IN VCD • 2002-2005

## VOLUNTEERING

### • AIGA CLEVELAND

INTERACTIVE DIRECTOR • 2/14-3/16

I took on this position because I wanted to increase my activity in the Cleveland design community. I love meeting and networking with other design professionals and this was the perfect platform to do that. My responsibilities in this position include maintaining the website, directing interactive committee members, coordinating email advertising efforts and helping out at events.
